

BARRACHINA'S

TECHNICAL INFORMATION

1. CLEANERS

1.2 CLEANERS IN SOLVENT BASE

1.2.3 LAVADOR S

CHARACTERISTICS: It is an organic not watery cleaner with a transparent liquid aspect. It is composed of aliphatic solvents, what makes drying time be shorter.

APPLICATION FIELD: For any full-grain and Corrected leather. As an advantage over Ammoniacal Cleaner or Shoe Cleaner, it has a great facility to clean neoprene glues that dirty the leather once the shoe manufacturing process is finished.

INSTRUCTIONS FOR USE: Like any cleaner. The product is only a help for the rag. That will be, humidified with S Cleaner, the dirt dissolver agent in corners and difficult to access places. It is advisable not only to use tight-fitting gloves to deal with the product, but also have a good ventilation in the work place designed for its use. You must be as strict as possible in its use, as it is a product in solvent base and consequently volatile.

SECURITY: Look up the general security section.

Barrachinas cannot control the conditions under which its products are used, therefore do not accept responsibilities concerning the results and/or consequences from its usage.
