

BARRACHINA'S

TECHNICAL INFORMATION

10. ECO-CREAMS

10.1 SELF-BRIGHTENING ECO-CREAMS

10.1.4 ECO-CREMA BOX BL-320

CHARACTERÍSTICS:

Mixture of acrylic polymers, waxes and leveling and touch additives in a aqueous medium. When it applies to a shoe it gives **a high power gloss with a dry and sliding touch.**

APPLICATION FIELD:

The best results of this cream obtains when it applies alone or with another eco-cream, in crust or semiended leathers to get a plenty grain effect and a good adherence for the gloss ending.

INTRUCTIONS FOR USE:

After thoroughly cleaning leather from glues and other dirts, and after repairing and leveling colours if necessary, you will apply coloursless or coloured ECO-CREMA BOX BL-320 with a sponge. It is advisable to use proper sponges with great resistance, high density, very soft and small cells, able to spread product as uniformly as possible. When it is dry, after 3 to 5 minutes approximately, you will brush the shoe with a horsehair brush, and a cotton or wool brush afterwards, at 500 to 800 r.p.m. This last brush can be impregnated with our BRIGHTENING WAX..

SECURITY:

Look up the general security section.

REMARKS:

Our zone laboratories can give ECO-CREMA BOX BL-320 any ECO-aniline colour if needed, to enhance or equalize the shoe general tone.

Barrachinas cannot control the conditions under which its products are used, therefore do not accept responsibilities concerning the results and/or consequences from its usage.
