

TECHNICAL INFORMATION

10. ECO-CREAMS

10.2 TO-BE-POLISHED ECO-CREAMS

10.2.1 ECO-CREMA CRISTAL MB

CHARACTERISTICS:

Mixture of waxes and polymers in a watery media with creamy look, when applied to a shoe it provides a **medium natural and nice gloss, with a natural-waxy touch.**

APPLICATION FIELD:

The best performance of this cream is achieved when applied over CRUST LEATHER in which you want to get a good filling, natural touch and most important, a light burnt effect after brushing,

INSTRUCTIONS FOR USE:

Once it has been carried out the cleaning of glues and other dirt, and the repairing and colour levelling if necessary, apply ECO-CREAM CRISTAL MB.

Once the shoe has dried up, after 5-6 minutes approximately, you have to brush first with a fabric brush at 1.000 rpm, and later with a cotton or wool brush at 500/600 rpm approximately.

SECURITY:

Check the security dossier.

REMARKS:

Our area labs can produce colored ECO-CREAM CRISTAL MB in any aniline tone if the finish requires it, either to enhance or level the general tone of the shoe.

Barrachinas cannot control the conditions under which its products are used, therefore do not accept responsibilities concerning the results and/or consequences from its usage.
