

TECHNICAL INFORMATION

10. ECO-CREAMS

10.2 TO-BE-POLISHED ECO-CREAMS

10.2.2 ECO-CREMA CRISTAL MB N°3

CHARACTERISTICS:

Mixture of waxes and polymers in a watery media with thick liquid look and toasted colour, when applied to a shoe it provides a **natural gloss, with a nice warm touch.**

APPLICATION FIELD:

This cream has been specially designed to be applied on CRUST LEATHER in which you want to get a strong burnt effect over any kind of leather, specially those with vegetable tanning or re-tanning. Besides, because of its strong filling effect, it is recommended for leather which has been ground to hide faults in the leather grain.

INSTRUCTIONS FOR USE:

Once it has been carried out the cleaning of glues and other dirts, and the repairing and colour levelling if necessary, apply ECO-CREAM CRISTAL MB N° 3.

Once the shoe has dried up, after 5-6 minutes approximately, you have to brush first with a fabric brush at 1.000/1.100 rpm, and later with a cotton or wool brush at 500/600 rpm approximately.

SECURITY:

Check the security dossier.

REMARKS:

Our area labs can produce colored ECO-CREAM CRISTAL MB N° 3 in any aniline tone if the finish requires it, either to enhance or level the general tone of the shoe.

Barrachinas cannot control the conditions under which its products are used, therefore do not accept responsibilities concerning the results and/or consequences from its usage.
