

BARRACHINAS

## FICHA TECNICA\_CURTIDOS

### DYES

#### 12.3.2.PELTIÑ CU COLOURS

##### **Characteristics:**

Metal-complex dyes in solvent medium. Due to their manufacturing conditions and low salt content, they are dyes with very good fixation, fastness and exhaustion.

##### **Application Field:**

They are specially designed for application on any type of leather where an intense, uniform dye with good penetration is required. The leathers dyed with Peltiñ CU dyes are characterized by their good fastness to sweat and light.

##### **Instrucions for Use:**

They can be used as a base dye and also combined with all kinds of creams for background applications or to enhance colors. Used with the final glossing and/or touch agents, they give the leather great liveliness and uniformity.

**Security:** Look up the general security section.

**Remarks:** Our laboratories in the area at the foot of the factory can present you with any product colored to the desired tone.
