

FICHA TECNICA_CURTIDOS

12.4.6 FONDO M-500

BARRACHINA'S

ASPECT: White liquid

SOLIDS: 2.5% +/- 1

PRECAUTIONS: See instructions on the packaging and in the Safety Data Sheet.

Characteristics:

Combination of waxes and polymers, properly formulated in solvent medium.

Its application provides a natural look and a soft touch.

Application Field:

In cases of very faulty leather, can also be pigmented with non-ionic pigments without losing their features.

It is used as a base coat on crust leathers, for filling and dye the leather, in order to provide coverage, eliminating imperfections of leather.

Instructions for use:

Apply with sprayin gun. The right amount of application, would be about 6-8 grams per foot².

Barrachinas cannot control the conditions under which its products are used, therefore do not accept responsibilities concerning the results and/or consequences from its usage.
