

BARRACHINA'S

FICHA TECNICA_CURTIDOS

12.9.9 PELLFIX V-220

ASPECT: Slightly yellowish milky liquid

PH: 7-9

PRECAUTIONS: See instructions on the packaging and in the Safety Data Sheet.

Characteristics

Compound based on urethanes, waxes and touch additives.

Ideal for concealing defects and colour dressing in nubuck leathers.

Application Field:

Generally for Nubuck Leathers where it is necessary to improve the classification or overcome the color, maintaining the natural appearance and characteristic writing effect of the nubuck.

Instructions for use:

Apply with an air spray gun after a good dusting with or without subsequent dusting. Depending on the leather, it will be necessary to add between 4-6% of the PELLFIX V-220.

Security:

Look up the general security section.

Barrachinas cannot control the conditions under which its products are used, therefore do not accept responsibilities concerning the results and/or consequences from its usage.
