

**BARRACHINA'S**

## TECHNICAL INFORMATION

### 3. REPAIRERS-LEVELERS

#### 3.3 ACABADO MASILLA

##### **CHARACTERISTICS:**

They are a mixture of filling inert substances that alone or properly pigmented make the Repairing Stick functions. Its aspect is of a stiffy liquid and it's manufactured in clear colour or every colour wanted.

##### **APPLICATION FIELD:**

Every kind of leather which, during the shoe manufacture, have been damaged (sanded, scratches, etc. ) very difficult to repair with a conventional Repairer.

##### **INSTRUCTIONS FOR USE:**

When the shoe surface to be finished is clean from glues and other contaminating dirts, the defects the leather has in the shoe vamp are more clearly seen. With the coloured or clear Acabado Masilla ready to use, you will rub on the damaged parts until the scratches are filled up. When it's dry, we go on the conventional finish that this shoe needs.

##### **SECURITY:**

Look up the general security section.

##### **REMARKS:**

In our zone laboratories every colour is prepared, so you will have fast solutions to production problems. They are presented in 1 or 5 litres pails.
