

BARRACHINA'S

## TECHNICAL INFORMATION

### 4. GLOSSES

#### 4.1 GLOSSES IN SOLVENT BASE

##### 4.1.12 LUXSOL S-LAUSANE

**CHARACTERISTICS:**

Dissolution of nitrocellulose properly formulated in a solvent medium with silicone and wax additives to give a soft and warm touch to leather. Its aspect is a turbid liquid for the matts and with the characterisitic solvent smell. With his application obtains an unpolished aspect.

**APPLICATION FIELD:**

Full-grain and Corrected Box-Calf leather, in special the leather finishes in tanneries with resins and lacquers.

**INSTRUCTIONS FOR USE:**

After thoroughly cleaning leather from glues and other dirt, and after repairing and leveling if necessary, you will apply Luxsol S-Lausane with a spraying gun with a nozzle opening of 1,5 mm., with a 4 atm. pressure and a proper distance to the shoe. The experience tells us the correct distance is from 25 to 35 cm. It is important to have a good application cabin equipped with an extractor fan, water screen and good light. It is convenient to use a protecting mask.

**SECURITY:**

Look up the general security section.

**OBSERVATIONS:**

In our zone laboratories can modify the intensity of the Gloss and also coloured with the desired tone.

*Barrachinas cannot control the conditions under which its products are used, therefore do not accept responsibilities concerning the results and/or consequences from its usage.*
