

BARRACHINA'S

TECHNICAL INFORMATION

5. CREAMS

5.2 TO BE POLISH CREAMS

5.2.8 CREMA PLANCHADORA

CHARACTERISTICS:

Emulsion of natural and soft synthetic waxes in a solvent medium, properly formulated with silicone oils to give the leather a soft and warm waxy touch.

Its aspect is of a white and very nice cream with a lightly scented white-spirit smell. It is obtained with a correct application a **matt dark gloss** and a very waxy touch.

APPLICATION FIELD:

It applies in leathers to lubricate the surface for avoiding the different effects like drying up, matt or another undesired effects it produces in the “ironing or hot air process”, when it exists creases. Like it's logical, it depends on leather absorption the quantity to apply to get the desired effect.

INSTRUCTIONS FOR USE:

After thoroughly cleaning leather from glues and other dirt, you will apply CREMA PLANCHADORA with a proper sponge. You will try to reach every corner in a uniform way, where the “ironing and hot air operations” used to provoke undesired effects. It is convenient and advisable this cream to be applied in good ventilation and hand protection conditions to avoid any allergic reaction or irritation.

SECURITY:

Look up the general security section.

REMARKS:

Our zone laboratories will supply you with any coloured CREMA PLANCHADORA.

Barrachinas cannot control the conditions under which its products are used, therefore do not accept responsibilities concerning the results and/or consequences from its usage.
