

BARRACHINA'S

TECHNICAL INFORMATION

7. SPECIAL PRODUCTS

7.17 ACEITE PROTECTOR P

CHARACTERISTICS: It's a mixture of oils and esters, properly formulated to get on the leather a very high resistance on drop water. Its aspect is a fluid oil with yellow color and insoluble in water medium.

APPLICATION FIELD: In leathers where you want to get and improve the resistance of drop water without losing natural, permanent and grasy touch. It gets on leather a good filling and doesn't provoke efflorescent greases. It can be used in vegetal leathers, softys, nubuks and suedes.

INSTRUCTIONS FOR USE: Apply with a proper sponge and leave dry some minutes.

SECURITY: Look up the general security section.

Barrachinas cannot control the conditions under which its products are used, therefore do not accept responsibilities concerning the results and/or consequences from its usage.
