

**BARRACHINA'S**

## TECHNICAL INFORMATION

### 7. SPECIAL PRODUCTS

#### 7.1 IGUALATEX

**CHARACTERISTICS:** Mixture of oils and touch additives, properly formulated, in a aqueous-alcoholic medium. Its aspect is of an opalescent yellow-white liquid, with an alcohol smell. It brings vigour and richness to the leather texture and colour, when applied on a Suede-like or Nubuk leather.

**APPLICATION FIELD:** As its characteristics tell, you will apply it on leathers with a **Suede-like or Nubuk** texture, when enhancing and leveling tone in a shoe is desired.

**INSTRUCTIONS FOR USE:** After thoroughly cleaning leather from glues and other dirts (with our NUBUK CLEANER RUBBER), and after repairing damages with our NUBUK REPAIRING STICKS, you will apply colourless or coloured IGUALATEX with an spraying gun with a nozzle opening of 1 to 1,5 mm. and a 4 to 6 atm. pressure, from a proper distance. Experience tells us that 25 to 35 cm. is the correct distance.

It is important to have an application cabin equipped with a good extractor fan, water screen and good light for the application to be correct. It is convenient to use protecting mask.

**SECURITY:** Look up the general security section.

**REMARKS:** Our zone laboratories can offer any IGUALATEX coloured with the desired tone.
