

BARRACHINA'S

TECHNICAL INFORMATION

8. AUXILIARY PRODUCTS

8.19 RESINA 56

CHARACTERISTICS: An acrylic binder of general use, with water resistant properties and low stickiness. Its appearance is a yellowish liquid.

APPLICATION FIELD: Like an additive in glosses and creams, in those cases it is required to improve the gloss, coverage and water resistance of leather. It has a fine particle and good stability. Its film is transparent and elastic with a very good capacity of adhesion and flexibility.

INSTRUCTIONS FOR USE: Add to the watery glosses in right proportions in each case or in creams and glosses.

SECURITY: Look up the general security section.

Barrachinas cannot control the conditions under which its products are used, therefore do not accept responsibilities concerning the results and/or consequences from its usage.
