

BARRACHINA'S

TECHNICAL INFORMATION

8. AUXILIARY PRODUCTS

8.31 TACTO F

CHARACTERISTICS:

Anionic emulsion of polysiloxanes in White color and in watery base. Tacto F has light resistance, it doesn't get yellow for the warm action.

APPLICATION FIELD:

To get the leather softer, a silky and velvety-like surface. Otherwise increase the water-repellent effect on leather.

INSTRUCTIONS FOR USE:

Like a final top in shoe finishing, you will apply with a spraying gun with a nozzle opening of 1,5 mm., with a 4 atm. pressure and a proper distance to the shoe. It is important to have a good application cabin equipped with an extractor fan, water screen and good light. It is convenient to use a protecting mask.

SECURITY:

Look up the general security section.

Barrachinas cannot control the conditions under which its products are used, therefore do not accept responsibilities concerning the results and/or consequences from its usage.
