TECHNICAL INFORMATION

8. AUXILIARY PRODUCTS

8.3 DESLIZADOR DE HORMAS / LASTS SLIDER

CHARACTERISTICS: Mixture of silicone oils and waxes formulated in a solvent medium. Its aspect is of a green-yellow liquid with a solvent smell.

APPLICATION FIELD: As its name tells, it is applied to the lasts to make the last slinging be an easy operation and avoid deforming the shoe.

INSTRUCTIONS FOR USE: Before entering the lasts in the production line, you will apply Lasts Slider on them with a rag, spreading the product as uniformly as possible. Let it dry.

It is convenient to apply the product in a well ventilated area and protect your hands with suitable work gloves.

SECURITY: Look up the security pages.

Barrachinas cannot control the conditions under which its products are used, therefore do not accept responsibilities concerning the results and/or consequences from its usage.
