

BARRACHINA'S

TECHNICAL INFORMATION

8. AUXILIARY PRODUCTS

8.5 SUAVILINE EMU

CHARACTERISTICS: Mixture of silicone oils in a watery medium. Its aspect is of a milky liquid with a solvent smell.

APPLICATION FIELD: For every leather when you want to give a final brushing in the shoe finishing, and make the final touch be soft, warm and nice, the same with matt, average or high glossy aspect.

INSTRUCTIONS FOR USE: You will apply some drops of product to the wool or cotton brush with a rag. Before brushing the shoe it is convenient to make the brush roll some minutes to avoid product humidity. Once the shoe is well brushed in every corner, it gets a very nice touch and is ready to be packed. It is convenient to make it as quickly as possible.

It is convenient to apply the product in a well ventilated area and protect your hands with suitable work gloves to avoid skin contact and any allergic reaction or irritation.

SECURITY: Look up the security pages.

Barrachinas cannot control the conditions under which its products are used, therefore do not accept responsibilities concerning the results and/or consequences from its usage.
