

BARRACHINA'S

TECHICAL INFORMATION

9. SOLES, EDGES AND HEELS FINISHING

9.3 TINTA TPC INC / NATURAL TPC INK

CHARACTERISTICS: Mixture of waxes and polymers properly formulated to get a good gloss when applied and polished on a **leather sole**.

APPLICATION FIELD: For Buffed or not Buffed leather soles.

INSTRUCTIONS FOR USE: You will apply it with a paintbrush or a spraying gun on a leather sole that may have been previously buffed. Once it is dried up you will polish it with a fabric sheets brush at 100 r.p.m. approx. impregnated with our **ABRASIVE WAX** to remove and level every leather surface imperfection. You will then brighten leather with a horsehair and cotton or wool brush at 500 r.p.m. approx. impregnated with our **BRIGHTENING WAX**.

It is important to have a good application cabin equipped with an extractor fan, water screen and light for the application to be rightly done. It is convenient to use protecting mask.

SECURITY: Look up the security pages.

REMARKS: Our zone laboratories can give TPC INKS any desired colour.

Barrachinas cannot control the conditions under which its products are used, therefore do not accept responsibilities concerning the results and/or consequences from its usage.
